DELTA UT 84624

Dear Mr. Crapo:

On July 2, 2003, a surface compliance inspection was conducted at the site of your mining notice, UTU-078296, located in T. 14 S., R. 10 W., Section 28.

There was a crew of men about a mile east of the quarry splitting rock that had been brought down to the staging area. Under normal circumstances this wouldn't have been a problem; however, your Notice expired on March 28, 2003, and the mineral materials sales contract you agreed to enter into has not been finalized.

The mineral materials sales contract is complete and ready to be finalized. You must furnish a reclamation bond of \$2000 and your first payment of \$786.00 before it can be signed. You must finalize the contract before you remove any more material from the quarry.

Upon finalizing the contract, we will release the \$1000 financial guarantee held by the Utah State Office of the BLM and close out your Notice case file. If you have any questions, please contact Jerry Mansfield at 435-743-3125.

Sincerely,

ACTING Rex Rowley
Field Office Manager
